REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Member
of Volant Execution, LLC

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of Volant Execution, LLC (the Company) as of December 31, 2019, and the related notes (collectively referred to as the financial statement). In our opinion, the statement of financial condition presents fairly, in all material respects, the financial position of Volant Execution, LLC as of December 31, 2019 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of Volant Execution, LLC's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to Volant Execution, LLC in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We have served as Volant Execution, LLC's auditor since 2018.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

VOLANT EXECUTION, LLC

Notes to Statement of Financial Condition

December 31, 2019

1. Organization

Volant Execution, LLC (the "Company"), was organized under the Illinois Limited Liability Company Act under its original name, Equitec Compass, LLC, on December 3, 2004 and was acquired by Volant Holding, LLC, the sole member on October 31, 2017. The Company is in the business of Clearing Member Transfer Agreements, which allows for the Company's customers to execute options transactions using the Company as the clearing member, upon which the Company transfers those positions to the customer's clearing member that holds its positions, facilities management, order routing, and executing brokerage and options transactions on the below-listed exchanges. Volant Holding, LLC is the Company's sole member.

The Company is registered as a broker/dealer with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). The Company is a member of the following exchanges: BOX Options Exchange (BOX), Bats BZX Exchange, Bats EDGX Exchange, C2 Options Exchange, Chicago Board Options Exchange (CBOE), MIAX PEARL, Miami International Securities Exchange (MIAX), NYSE American (AMEX), NYSE Arca (ARCA), Nasdaq BX, Nasdaq NQX, Nasdaq GEMX, Nasdaq ISE, Nasdaq MRX, and Nasdaq PHLX, as well as a member of the Options Clearing Corp. (OCC).

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with United States Generally Accepted Accounting Principles ("U.S. GAAP") requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Income Taxes

No provision has been made for federal U.S. income taxes as the taxable income or loss of the Company is included in the respective income tax return of the sole member.

In accordance with U.S. GAAP, the Company is required to determine whether its tax positions are more likely than not to be sustained upon examination by the applicable taxing authority, based on the technical merits of the position. Generally, the Company is no longer subject to income tax examinations by major taxing authorities for the years before 2016. Based on its analysis, there were no tax positions identified by management which did not meet the "more likely than not" standard as of and for the year ended December 31, 2019.

Cash

The Company maintains cash in certain bank accounts insured by the Federal Deposit Insurance Corporation (FDIC). The insurance is currently limited to \$250,000. During 2019, the accounts, at times, may have exceeded their insured limit; however, no losses have been incurred on the accounts.

2. Summary of Significant Accounting Policies, continued

Accounts Receivable

The Company extends credit to its customers and generally requires no collateral. As such, the Company is susceptible to credit risk from customers. Management reviews aged receivables on a regular basis, and maintains prudent credit and collection policies to minimize risk.

Accounts receivable are stated at the amounts the Company expects to collect. The Company maintains an allowance for doubtful accounts to recognize estimated losses resulting from the inability of its customers to make required payments. Management considers a variety of factors when determining the collectability of specific customer accounts, such as credit-worthiness, past transaction history, current economic industry trends, and changes in payment terms. Based on management's assessment, the Company provides for estimated uncollectible amounts through a charge to earnings and a credit to valuation allowance. Balances that remain outstanding after the Company has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. As of December 31, 2019, there was no balance in the allowance for doubtful accounts. For the year ended December 31, 2019, the Company estimated that it had no uncollectible accounts receivable to be charged to bad debt expense.

Receivable from Clearing Organization

At December 31, 2019, \$1,093,442 in cash was pledged to the Options Clearing Corporation. The Company may be required to pledge additional funds in the future to satisfy the Options Clearing Corporation's collateral requirements.

3. Receivable from Broker Dealer

The balance due from/to clearing broker generally includes net receivables and payables for settled trades, cash and margin balances held at the clearing broker. The Company earns or pays interest from/to its clearing broker based upon the federal funds rate computed on a daily basis on credit/debit balances. Amounts due from/to the clearing broker at December 31, 2019 consisted of cash/margin accounts totaling a net receivable balance of \$506,491.

4. Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1) which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. (The rule of the applicable exchange also provides that equity capital may not be withdrawn or cash distributions paid if the resulting ratio would exceed 10 to 1). Under this rule, the Company is required to maintain "minimum net capital" equivalent to \$100,000 or 6 2/3% of "aggregate indebtedness," whichever is greater, as these terms are defined.

At December 31, 2019, the Company had net capital and net capital requirements of \$2,582,259 and \$100,000, respectively.

5. Concentration of Credit Risk

The Company does not proprietarily trade securities for its own accounts; however, if in the course of executing customer transactions an error is made, it is cleared through ABN Amro Clearing Corp., the Company's clearing broker. In the event this counterparty does not fulfill its obligation, the Company may be exposed to risk. The risk of default also depends on the creditworthiness of the counterparties to these transactions. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

6. Guarantees

In the normal course of business, the Company enters into contracts that contain a variety of representations and warranties that provide indemnifications under certain circumstances. The Company's maximum exposure under these agreements is unknown, as this would involve future claims that may be made against the Company regarding circumstances that have not yet occurred. However, management considers the likelihood of a material loss related to these agreements to be remote.

7. Fair Value of Financial Instruments

Fair value is a market-based measurement, not an entity-specific measurement. For some assets and liabilities, observable market transactions or market information may be available. For other assets and liabilities, observable market transactions and market information may not be available. However, the objective of a fair value measurement is in both cases the same – to estimate the price at which an orderly transaction to sell the asset or to transfer the liability would take place between market participants at the measurement date under current market conditions.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 Inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions that market participants would use in pricing the asset or liability. The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.

At December 31, 2019 the Company held no Level 1, Level 2 or Level 3 investments.

8. Related Party Transactions

The Company has a facilities services agreement with Volant Holding, LLC, its sole member, under which the member provides support personnel, administrative services and office space.

The Company has a \$3,500,000 revolving loan agreement with Volant Holding, LLC. Notes drawn under the loan agreement are payable on demand, with interest due from time to time at the prime rate plus .5%. The Company did not drawdown on the loan agreement during 2019. At December 31, 2019, the loan balance was zero.

9. Subsequent Events

The Company's management has evaluated events and transactions through February 20, 2020, the date the financial statements were issued, noting no material events requiring disclosure in the Company's financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Member
of Volant Execution, LLC

We have reviewed management's statements, included in the accompanying Volant Execution, LLC Exemption Report, in which (1) the Company claimed an exemption from 17 C.F.R. § 240.15c3-3 under the following provisions of 17 C.F.R. § 240.15c3-3(k)(2)(ii) and (2) the Company met the identified exemptions provisions in 17 C.F.R. § 240.15c3-3(k) throughout the most recent fiscal year without exception. The Company's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, therefore, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.
